

Bohemian

Bright and interesting jewel coloured blooms, with a hint of the exotic. Flowers are a fanciful assortment with combinations including peonies, delphiniums, tiger lilies, ginger, orchids and heliconia.

Eclectic

Country style bouquets that are relaxed and informal, with textures and subtle colours coming into play. Bountiful and full with pretty feminine blooms such as hydrangea, roses, lilac and queen annes lace, combined with unusual elements like gum nuts and native foliage to create a unique and unexpected bouquet.

Sculptural

A strong organic mix of colours and textures combines to create a look that is inspired by nature. Lush tropical foliage, berries, pods, ferns, vines, succulents and natives. An interesting palette of unusual forms that contrasts with more traditional blooms.

Classic

Elegant, timeless and traditional. A more simple and clean style, perfectly formed round domes of roses or magnificent long stemmed lilies. Flowers will be one variety en masse or tasteful combinations of foliage and blooms. The colour palette will be white and green, but can also work beautifully with pastels or bright bold red, yellow or orange if requested.

Florist's Choice

Allow our talented florists to create a beautiful and bespoke arrangement to suit your occasion.

Other information to include:
